# Raymond-Whitcomb Tours

## Spring of 1919

### SPECIAL FEATURES

It gives us the greatest pleasure to call your attention to some of the important features of our Spring Tours, as they are in many ways the most attractive series of tours that we have ever offered.

#### Yosemite Valley

The Yosemite Valley, as you know, is incomparably more beautiful in spring and early summer than at any other time of year. Some of our tours are so arranged that you may include the Yosemite or omit it, according to your desire.

#### Yellowstone Park

Our Yellowstone parties this year will make the trip through the Park *by automobile*—in fine new seven- and ten-passenger cars—instead of by the old slow horse stages of the past. This eliminates at a stroke the long tiresome journeys between points and will enable the members of the Raymond-Whitcomb parties this year to spend the greater part of their time at the various sights instead of on the road and to see comfortably in five days as much as our parties formerly saw in seven.

#### Automobiling Through California

By special arrangement our parties will do most of their traveling in Southern California by automobile. No one who has only travelled through California by train, with occasional automobile rides at resorts, can realize the wonderful beauty of the country which is revealed by motoring through the heart of it. All our Spring Parties will proceed from Riverside to Coronado Beach and Pasadena by interesting new routes over marvelous roads in luxurious five- and seven-passenger cars.

#### What is A Raymond-Whitcomb Tour?

A Raymond-Whitcomb Tour is a party of congenial people, traveling in ideal comfort, along a route of their own selection, with complete privacy and liberty of action, but with none of the daily worry of travel arrangements.

To join such a party is to take out effective insurance against nine tenths of the troubles and hardships of travel, for all your reservations (on trains and at hotels) are made for you in advance, without effort on your part.

By the simple expedient of turning over to us the business details of your pleasure trip, you become truly master of your own time and free from the fear that you may have to omit part of your trip or alter your most cherished

plans because you did not route your return ticket over the right railroad; or because some hotels cannot give you accommodations at the time when you want them; or because you cannot get a berth on the only train that will make the right connections.

### **What We Furnish**

We furnish all your railroad, steamship and Pullman tickets, many automobile rides and other excursions, rooms at hotels and meals at hotels and on trains during the entire trip. For this you pay us a lump sum, as the price of the tour. In this way you know in advance just what your trip will cost and you are freed from the constant annoyance of continual payments.

An experienced tour manager accompanies each party and is in charge of all the travel arrangements.

### **Our Tours Are Never Hurried**

Our tours are never hurried, but include delightful stays in luxurious hotels at the most celebrated resorts. Interesting side trips (mostly in five- and seven-passenger automobiles) have been arranged at the various places. There is no fixed program to which you have to conform. You may take these trips (or not, as you prefer) and have as ample time besides and as great freedom in disposing of it as though you were traveling alone.

### **Our Itineraries Are Unusual**

The carefully planned itineraries of our tours are the result of years of experience and offer the widest choice of routes. Our aim is to include all the places which every traveler would most want to see and not a few others which while less known, are of extreme interest. In short, we try to provide such a series of tours as you would plan for yourself if you were as familiar with the field as forty years of experience have made us and our staff of travel experts.

### **The Travel Arrangements Are Exceptional**

At the same time we have not found it necessary to sacrifice comfort in the interest of sightseeing, and our tours provide for such leisurely, unhurried journeys that the fatigue of travel is eliminated and each tour is in the fullest sense a restful vacation.

In many cases our experience has suggested special arrangements of route and train service, which add immensely to your pleasure and comfort but which might not have occurred to you if you were traveling by yourself.

### **Only the Best Hotels**

Our parties do not stay at second-rate hotels but at *the best* hotels in every place. A glance at the names of these hotels, as given in the itinerary of each tour, will tell the experienced traveler more than anything we can say as to the high standard of service which we have set as our ideal.

## Automobiling Everywhere

A great part of the enjoyment of a pleasure trip depends upon satisfactory arrangements for sightseeing. To ensure perfect comfort, five- and seven-passenger automobiles of the best type should be used. The sightseeing on our tours is (wherever possible) by automobile and in cars of just that type. And there is a great deal of automobiling.

All our spring parties travel through Southern California by automobile (from Riverside to Coronado Beach and Pasadena) and in addition there are automobile trips at Riverside, Coronado Beach, Pasadena, Santa Barbara, Del Monte, San Jose, San Francisco, Portland, Seattle, Vancouver, Victoria, Salt Lake City, Manitou and Denver.

## Other Interesting Side Trips

Besides the automobiling, our tours include many other interesting side trips, such as the sensational Hermit Rim Drive at the Grand Canyon, the trip to the summit of Mt. Tamalpais at San Francisco, the scenic railroad trip to Cripple Creek in Colorado and at Lake Louise and Banff in the Canadian Rockies.

## Our Tours Allow Perfect Independence

Members of our tours are more *independent* than the so-called "independent" traveler, for they are relieved of all the troublesome work of travel arrangements and, by our system of "stopovers anywhere," are free to travel when and where they will.

In other words, if you come with us, you may leave one party and join another, stay a longer time here and a shorter time there—in fact have all the freedom that you would have if traveling by yourself, and in addition freedom from the constant worry of tickets, time-tables, baggage, reservations and the hundred and one things-to-be-attended-to, which take up so much time that might be devoted to sightseeing and rest.

## And Our Parties Are Limited

You will find the atmosphere of our tours in every respect just what you would desire.

All our parties are limited in numbers and consist of well-to-do, cultivated people, who enjoy companionship and insist upon privacy to exactly the same extent that you yourself do.

In a word, our tours are a form of service peculiarly adapted to meet your needs and our minimum standard of service is exactly your standard, *the best*—at the lowest price possible for such service, but the best.

## WHAT THE MEMBERSHIP INCLUDES

The membership in each tour covers all necessary traveling expenses as follows:

First-Class Railroad and Steamship Tickets throughout the route.

First-Class Pullman Sleeping Car berth (half a section) during the transcontinental journeys.

First-Class Berth on steamships, in outside stateroom.

Hotel Rooms Throughout the trip at hotels of the most luxurious type.

Meals Throughout at hotels, whether table d'hôte or à la carte.

Meals Throughout on trains, whether table d'hôte or à la carte. When meals on trains are served à la carte, coupons for \$3.00 a day are furnished. Each dining car meal coupon is redeemable for \$1.00 if not used.

Automobiles as shown in the itinerary.

Side Trips and Excursions as shown in the itinerary.

Transfers between hotels and stations.

Baggage—transportation and transfer of 150 pounds (75 pounds for children) throughout.

Services of Tour Managers, Offices and Agents.

*(When Automobiles are mentioned, five- and seven-passenger cars are referred to.)*

### Note

In connection with the various transportation and sleeping car companies, hotels or other services Raymond & Whitcomb Company act only as agents and as such will not be liable for any delay, accident or loss. The program may be altered when necessity or the comfort or welfare of the passengers suggests, but there is little likelihood of this. Prices of these tours are based on rates in effect March 5, including Government tax and may be altered if necessary to meet changes of rates or special additional taxation.

### Registration Methods

Persons desiring to join one of our parties should send their names to be registered as early as convenient. A name is registered as soon as an intention to go is expressed, and this registration secures a place in the cars, on steamships, at hotels where sojourns may be made, and in every way insures membership in the party. Tickets can be taken and paid for at the convenience of the passenger any time to within three weeks of the date of departure. The advantage of sending in names early is readily seen.

Members are not compelled to come to the starting point in order to join a party, but may connect with the train at any convenient place along the route. In all cases places are reserved for passengers who are to join en route.

### Personal Escort and Attention

Our Raymond-Whitcomb parties are always under the charge of competent tour managers, who devote their attention to the welfare and comfort of the passengers and who superintend all business arrangements. Hotel accommodations are arranged in advance, and in other particulars the members of the party are relieved of many petty cares inseparable from ordinary travel. Thus the tourist is left to the fullest enjoyment of the journey, while appointed agents attend to the task of arranging its details.
